9.	Other/own mutual funds	The scheme may invest in the units of Mutual Fund Schemes. Such investment shall not exceed 5% of the net asset value of the Fund.	Clause 4 of Seventh Schedule of SEBI (Mutual Funds) Regulations, 1996.																																																						

The Scheme retains the flexibility to invest across all securities in the Debt Securities and Money Market Instruments. The portfolio may hold cash depending on the market conditions.

In terms of paragraph 12.24 of SEBI Master Circular for Mutual Funds, the cumulative gross exposure through equity, debt, money market instruments and derivative positions (including fixed income derivatives), repo transactions and credit default swaps in corporate debt securities, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs) and other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme.

Pending deployment of funds of the Scheme in securities in terms of the investment objective of the Scheme the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the guidelines prescribed under paragraph 12.16 of SEBI Master Circular for Mutual Funds, as amended from time to time. The Scheme will comply with the following guidelines/restrictions for parking of funds in short term deposits:-

- a. "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
- b. Such short-term deposits shall be held in the name of the Scheme.
- c. The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with the approval of the Trustee.
- d. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- e. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- f. The Scheme shall not park funds in short-term deposit of a bank which has invested in the said Scheme. Further Trustees/AMC shall also ensure that a bank in which scheme has short term deposit does not invest in the Scheme until the Scheme has short term deposits with such bank.
- g. AMC shall not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

However, the above provisions will not apply to term deposits placed as margins for trading in cash and derivatives market.

Overseas Investments by the Scheme:

According to paragraph 12.19 of SEBI Master Circular for Mutual Funds, mutual funds can invest in certain permissible foreign securities.

As per paragraph 12.19 of SEBI Master Circular for Mutual Funds, overseas investments are subject to an overall limit of US\$ 7 billion for all mutual funds put together. The Mutual Funds have been allowed an individual limit of US\$ 1 billion for overseas investments. The Scheme may, with the approval of SEBI/ RBI invest in foreign securities as specified by SEBI. The overall ceiling for investment in overseas ETFs that invest in securities is US \$ 1 billion subject to a maximum of US \$ 300 million per mutual fund.

The AMC is allowed to invest in overseas securities upto 20% of the average Asset Under Management ('AUM') in overseas securities of the previous three calendar months subject to maximum limit of USD 1 billion per Mutual Fund. The above limits shall be considered as soft limits for the purpose of reporting only by Mutual Funds on monthly basis as per paragraph 12.19.1.3(d) of SEBI Master Circular for Mutual Funds.

The Mutual Fund may, where necessary will appoint intermediaries as sub-managers, sub-custodians, etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The dedicated fund manager appointed for making overseas investments by the Mutual Fund will be in accordance with the applicable requirements of SEBI.

	<p><u>Portfolio Rebalancing:</u></p> <p>As per paragraph 2.9 of SEBI Master Circular for Mutual Funds, as may be amended/ clarified from time to time, in the event of passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager is required to carry out portfolio rebalancing within thirty (30) business days. In case the portfolio is not rebalanced within the period of thirty (30) business days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall follow the requirements specified under the aforesaid regulation including reporting the deviation to Trustees at each stage.</p> <p><u>Short term defensive consideration:</u></p> <p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations in line with paragraph 1.14.1.2(b) of SEBI Master Circular for Mutual Funds and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.</p>
<p>Investment Strategy</p>	<p>The scheme will seek to achieve its investment objective by investing predominantly in equity and equity related instruments, debt and money market instruments and thru investments in InVITs and REITs.</p> <p>Equity Strategy</p> <p>The fund would have an actively managed portfolio. The fund manager will invest into companies across market capitalization. A combination of the top down and bottom up approach will be used to invest in equity and equity related instruments. Investments will be pursued in selected sectors based on the investment team’s analysis of business cycles, regulatory reforms, competitive advantage etc. Selective stock picking will be done from these sectors. The fund manager in selecting stocks will focus on the fundamentals of the business, the industry structure, the quality of management, sensitivity to economic factors, the financial strength of the company and the key earnings drivers.</p> <p>Derivatives Strategy</p> <p>The scheme will also employ various strategies which seek to exploit opportunities available in the derivatives markets.</p> <p>Fixed Income Strategy</p> <p>The fixed income portfolio will consist of a pool of investment grade rated fixed income securities. The Fund Management team endeavors to meet the investment objective whilst maintaining a balance between safety and return on investments. The Fund Management team may endeavor to generate returns whilst moderating credit and interest rate risk. The Fund Manager shall formulate a view of the interest rate movement based on various parameters of the Indian economy, as well as developments in global markets. The actual allocation to Money Market securities and other fixed income Securities will be decided after considering the economic environment including interest rates and inflation, the performance of the corporate sector and general liquidity and other considerations in the economy and markets.</p> <p>DERIVATIVES</p> <p>The Scheme may invest in various derivative instruments which are permissible under the applicable regulations. Such investments shall be subject to the investment objective and strategy of the Scheme and the internal limits if any, as laid down from time to time. These include but are not limited to futures (both stock and index) and options (stock and index). Derivatives are financial contracts of pre-determined fixed duration, whose values are derived from the value of an underlying primary financial instrument such as interest rates, exchange rates, commodities and equities. There are several advantages in using derivatives in the portfolio. The use of derivatives provides flexibility to the Scheme to hedge whole or part of the portfolio.</p>

The risks associated with derivatives are similar to those associated with underlying investments. The additional risks of using derivative strategies could be on account of:

- Illiquidity;
- Potential mispricing of the Futures/Options;
- Lack of opportunity;
- Inability of derivatives to correlate perfectly with the underlying (Indices, Assets, Exchange Rates);
- Cost of hedge can be higher than adverse impact of market movements;
- An exposure to derivatives in excess of the hedging requirements can lead to losses;
- An exposure to derivatives can also limit the profits from a genuine investment transaction.
- The prices which are seen on the screen need not be the same at which execution will take place.

For detailed risks associated with use of derivatives, please refer paragraph “Scheme Specific Risk Factors”

For further details regarding concepts and examples of derivatives that may be used by the fund manager, please refer to SAI.

Securitisation

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. A typical process of asset securitisation involves sale of specific Receivables to a Special Purpose Vehicle (SPV) set up in the form of a trust or a company. The SPV in turn issues financial instruments (e.g., promissory notes, pass through certificates or other debt instruments) to investors, such instruments evidencing the beneficial ownership of the investors in the Receivables. The financial instruments are rated by an independent credit rating agency. An Investor’s Agent is normally appointed for providing trusteeship services for the transaction.

On the recommendation of the credit rating agency, additional credit support (Credit Enhancement) may be provided in order that the instrument may receive the desired level of rating. Typically the servicing of the Receivables is continued by the seller in the capacity of the Servicer. Cash flows, as and when they are received, are passed onto the investors.

Risk Control

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process.

The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. Stock specific risk will be minimized by investing only in those companies that have been analyzed by the Investment Team at the AMC. For investments in debt securities, the AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous and in-depth credit evaluation of the securities proposed to be invested in, will be carried out by the investment team of the AMC. Rated Debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC will be guided but not limited by the ratings of Rating Agencies such as CRISIL, CARE, ICRA and Fitch or any other rating agencies that may be registered with SEBI from time to time. In case a debt instrument is not rated, investment will be in accordance with Guidelines approved by the Board.

For its investments into Equity instruments, the Scheme will invest across a range of market capitalisations with a preference for medium and large companies. A top down and bottom up approach will be used to invest in equity and equity related instruments. Investments will be pursued in select sectors based on the Investment Team’s analysis of business cycles, regulatory reforms, competitive advantage etc. Selective stock picking will be done from these sectors. The fund manager in selecting scrips will focus on the fundamentals of the business, the industry structure, the quality of management, sensitivity to economic factors, the financial strength of the company and the key earnings drivers. The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted.

Overview of Debt Market in India

The Indian bond market comprises mainly of Government securities, bonds issued by Public Sector Undertakings (PSU), Development Financial Institutions (DFI) and infrastructure related agencies, debentures and money market instruments issued by the corporate sectors and banks.

	<p>The Indian bond market has witnessed increased issuance of bonds from government sponsored institutions, DFIs, and infrastructure related agencies since 1995. These bonds are rated by credit rating agencies like CRISIL, ICRA, CARE and India Ratings They constitute reasonable amount of the trading volume on the Wholesale Debt Market platform of National Stock Exchange/Bombay Stock Exchange and are widely held by market participants because of their liquidity and reduced risk perception due to the government stake in some of them.</p> <p>The Indian corporate sector has also been frequently raising capital through issuance of non-convertible debentures and commercial papers. Most of the money is raised through the “Private Placement” route. These debentures/commercial papers are mostly rated by rating agencies like CRISIL, ICRA, CARE and India Ratings. There is an active secondary market for these debentures/commercial papers(CPs).</p> <p>The Government of India routinely issues government securities and Treasury bills for liquidity and fiscal management. While the government issues Treasury bills for 91 days, 182 days and 364 days in a discounted form, the coupon-bearing government securities are issued for maturity ranging from 1 year to as high as 50 years. Both the Treasury bills and coupon-bearing securities are auctioned by the RBI on behalf of the Government of India.</p> <p>Certificate of Deposits (CDs) are mostly issued by scheduled commercial banks for tenor ranging from 7 days to 1 year. Select Financial Institutions can also issue CDs for tenor above 1 year and upto 3 years. CDs are more liquid than CPs.</p> <p>Portfolio Turnover</p> <p>Portfolio turnover is defined as the aggregate of purchases and sales as a percentage of the corpus of the Scheme during a specified period of time. Portfolio turnover in the Scheme will be a function of market opportunities. The economic environment changes on a continuous basis and exposes debt portfolio to systematic as well as nonsystematic risk. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.</p> <p>The Investment Manager will endeavor to optimise portfolio turnover to optimise risk adjusted return keeping in mind the cost associated with it. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for scrip/securities held in the portfolio rather than an indication of a change in AMC’s view on a scrip, etc.</p>
<p>Risk Profile of the scheme</p>	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Document (SID) carefully for details on risk factors before investment. Please refer to the SID for Scheme Specific Risk Factors.</p>
<p>Plans & Options</p>	<p>The Scheme offers two plans viz. Regular Plan and Direct Plan.</p> <p>Direct Plan is only for investors who purchase /subscribe Units in the Scheme directly with the Fund and is not available for investors who route their investments through a Distributor and is offered in accordance with paragraph 2.5 of SEBI Master Circular for Mutual Funds.</p> <p>Each Plan has two Options, viz., Growth Option and Income Distribution cum Capital Withdrawal Option (IDCW). IDCW Option has the following two facilities:</p> <ol style="list-style-type: none"> i. Payout of Income Distribution cum Capital Withdrawal option (IDCW-Payout); ii. Reinvestment of Income Distribution cum Capital Withdrawal option (IDCW- Reinvestment); <p>IDCW Frequency: Regular and Monthly</p> <p>Default Option: Growth</p> <p>Default Sub-option: IDCW Reinvestment</p> <p>Default IDCW Frequency: Monthly</p>
<p>Applicable NAV (after the scheme</p>	<p>Subscription/Purchase Including Switch-Ins:-</p>

<p>opens for subscriptions and redemptions)</p>	<p>a) In respect of valid application received before 3.00 p.m. on a business day and funds for the entire amount of subscription/ purchase as per the application are credited to the bank account of the Scheme and are available for utilization before the cut-off time, the closing NAV of the day on which the funds are available for utilisation shall be applicable;</p> <p>b) In respect of valid application received after 3.00 p.m. on a business day and funds for the entire amount of subscription / purchase as per the application are credited to the bank account of the Scheme and are available for utilization before the cut-off time of the next business day, the closing NAV of the next business day shall be applicable;</p> <p>c) However, irrespective of the time of receipt of valid application on a given Business day, where the funds are not available for utilisation before the cut off time on the day of the application, the closing NAV of the Business Day on which the funds are available for utilisation before the cut-off time (3:00 p.m.) shall be applicable.</p> <p>For determining the availability of funds for utilisation, the funds for the entire amount of subscription/purchase (including switch-in) as per the application should be credited to the bank account of the scheme before the cut-off time and the funds are available for utilisation before the cut-off time without availing any credit facility whether intra-day or otherwise, by the Scheme.</p> <p>Redemptions Including Switch-Outs:</p> <p>1) In respect of valid applications received up to 3 p.m. on a business day by the Mutual Fund, closing NAV of the day of receipt of application, shall be applicable.</p> <p>2) In respect of valid applications received after 3 p.m. on a business day by the Mutual Fund, the closing NAV of the next business day shall be applicable.</p> <p>All physical applications will be time stamped in accordance with the SEBI guidelines.</p> <p>Switch Transactions</p> <p>Valid Switch application will be considered for processing on the earliest day which is a Business Day for both the ‘Switch out’ scheme and the ‘Switch in’ scheme.
