the threshold mandated above, the AMC shall ensure compliance with the above requirement before making any further investment.

The scheme retains the flexibility to invest across all the securities in the debt and money markets instruments. The fund manager may use derivative instruments as may be permitted from time to time and as may be deemed appropriate.

Fixed Income Markets are generally very volatile by nature. A complex range of variables like inflation, liquidity, credit demand and economic activity levels etc influence the level of interest rates. Further, slope of yield curve as well the spreads across different sections of fixed income markets (for example spread between government securities and corporate bonds) keep varying from time to time. In such an environment of frequent changes in relative levels of different segments of the market, expectation is that a dynamically managed portfolio should generate a return higher than a passively managed portfolio. As such, this scheme is named Dynamic Bond Fund.

The cumulative gross exposure through debt, money market instruments, derivative positions (including fixed income derivatives), repo transactions and credit default swaps in corporate debt securities, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme.

Pending deployment of funds of a Scheme in terms of the investment objectives of the Scheme, the AMC may invest the funds of the Scheme in short term deposits of scheduled commercial banks in accordance with the guidelines set out by SEBI under the Regulations. The Scheme will comply with the following guidelines/restrictions for parking of funds in short term deposits:-

- a. "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
- b. Such short-term deposits shall be held in the name of the Scheme.
- c. The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with the approval of the Trustee.
- d. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- e. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- f. The Scheme shall not park funds in short-term deposit of a bank which has invested in the said Scheme. Further Trustees/AMC shall also ensure that a bank in which scheme has short term deposit does not invest in the Scheme until the Scheme has short term deposits with such bank.
- g. AMC shall not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

However, the above provisions will not apply to term deposits placed as margins for trading in cash and derivatives market.

Overseas Investments by the Scheme

According to paragraph 12.19 of SEBI Master Circular for Mutual Funds, mutual funds can invest in certain permissible foreign securities.

As per paragraph 12.19 of SEBI Master Circular for Mutual Funds such investments are subject to an overall limit of US\$ 7 billion for all mutual funds put together. The Mutual Funds have been allowed an individual limit of US\$ 1 billion for overseas investments. The Scheme may, with the approval of SEBI/ RBI invest in foreign securities as specified by SEBI. The overall ceiling for investment in overseas ETFs that invest in securities is US \$ 1 billion subject to a maximum of US \$ 300 million per mutual fund.

The AMC is allowed to invest in overseas securities up to 20% of the average Asset Under Management ('AUM') in overseas securities of the previous three calendar months subject to maximum limit of USD 1 billion per Mutual Fund. The above limits shall be considered as soft

	<p>limits for the purpose of reporting only by Mutual Funds on monthly basis as per paragraph 12.19.1.3(d) of SEBI Master Circular for Mutual Funds. The above limits shall be considered as soft limits for the purpose of reporting only by Mutual Funds on monthly basis as per paragraph 12.19.1.3(d) of SEBI Master Circular for Mutual Funds.</p> <p>The Mutual Fund may, where necessary will appoint intermediaries as sub-managers, sub-custodians, etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses.</p> <p>Investment in the units of CDMDF:</p> <p>In accordance with the requirement of regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2023/129 dated July 27, 2023 on Investment by Mutual Fund Schemes and AMC's in units of Corporate Debt Market Development Fund, scheme shall invest 25 bps of its AUM as on December 31, 2022 in the units of the Corporate Debt Market Development Fund ('CDMDF') within 10 working days from the request of CDMDF. Further, an incremental contribution to CDMDF shall be made every six months within 10 working days from the end of half year starting from December 2023 to ensure 25 bps of scheme AUM is invested in units of CDMDF.</p> <p>However, if AUM decreases there shall be no return or redemption from CDMDF. Contribution made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF.</p> <p>However, in case of winding up of contributing Scheme, inter-scheme transfers within the same Mutual Fund or across Mutual Funds may be undertaken.</p> <p>Further, investments in CDMDF units shall not be considered as violation while considering maturity restriction as applicable for various purposes (including applicable Investment limits) and the calculations of Potential Risk Class (PRC) Matrix, Risk-o-meter, Stress testing and Duration for various purposes shall be done after excluding investments in units of CDMDF.</p> <p>Portfolio Rebalancing</p> <p>As per paragraph 2.9 of SEBI Master Circular for Mutual Funds, as may be amended/ clarified from time to time, in the event of passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager is required to carry out portfolio rebalancing within thirty (30) business days. In case the portfolio is not rebalanced within the period of thirty (30) business days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall follow the requirements specified under the aforesaid regulation including reporting the deviation to Trustees at each stage.</p> <p>Short term defensive consideration:</p> <p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations in line with paragraph 1.14.1.2(b) of SEBI Master Circular for Mutual Funds and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.</p>
<p>Investment Strategy</p>	<p>The objective of the Scheme is to seek to generate returns through active management of the portfolio of debt and money market instruments.</p> <p>The Scheme is a medium to long-term investment option that provides the flexibility to counter a dynamic environment by actively managing its portfolio in line with the evolving interest rate scenario. The Scheme will follow an active duration management strategy.</p>

The investment strategies will focus on constructing fixed income portfolios in line with above objective. Portfolio manager will manage the fund based on the outlook on interest rates and liquidity etc. Such outlook will be developed by in-house assessment of various macro factors like economic growth, inflation, credit pick-up, liquidity and other such factors as considered relevant. Credit portfolio management will be primarily guided by external credit ratings assigned by any of the recognized credit rating agency. Additionally, as may be deemed appropriate, inputs may be taken from financial statement analysis, management review, industry trends, capital structure and covenant analysis to identify securities for inclusion / exclusion from credit portfolios. Efficient portfolio construction will be used to manage interest rate risk across different asset class and duration buckets, and optimise risk-adjusted returns.

The Scheme may use debt derivative instruments like interest rate swaps like Overnight Indexed Swaps (“OIS”), forward rate agreements, interest rate futures or such other derivative instruments as may be permitted under the applicable regulations.

Derivatives may be used for the purpose of hedging, and portfolio balancing and such other purpose as may be permitted under the regulations and Guidelines from time to time. The Fund Manager will actively monitor and review markets and portfolios so that necessary rebalancing of the portfolios can be done.

Investment in Fixed Income Derivative Instruments:

SEBI has vide its paragraph 12.28.1.4 of Master Circular on Mutual Funds, permitted all mutual funds to participate in derivatives trading subject to observance of guidelines issued by SEBI in this behalf.

Pursuant to paragraph 7.5, 7.6 and 12.25 of SEBI Master Circular for Mutual Funds and such other circular issued by SEBI from time to time in this regard, the Scheme may use derivative instruments like Interest Rate Swaps, Forward Rate Agreements, stock future or other derivative instruments for the purpose of hedging and portfolio balancing or for its efficient management.

Derivative instruments offer unique advantages like security exposures without the attendant execution and settlement risk. Derivative instruments carry a high risk return ratio. It is like an insurance policy where one has to pay the premium up-front and the benefit is contingent upon an event. Derivative instrument if used on a leveraged basis could distort the risk return ratio considerably even with a small price movement (the scheme will not take a leveraged exposure). It requires a high level of knowledge, understanding and surveillance to control risk.

The Scheme may use derivative instruments primarily to protect the value of portfolio against potential risks such as interest rate risk, credit risks, reinvestment risk and liquidity risks. This protection is also known as hedge. At the same time, however, a properly correlated hedge will result in a gain in the portfolio position being offset by a loss in the hedge position. As a result, the use of derivatives could limit any potential gain from an increase in value of the position hedged. In addition, an exposure to derivatives in excess of the hedging requirement can lead to losses. IRS and FRAs do also have inherent credit and settlement risks. However, these risks are substantially reduced as they are limited to the interest streams and not the notional principal amounts.

Derivative instruments may take form of Interest rate swaps, Forward rate agreements and such other derivative instruments as may be available from time to time and appropriate for the portfolio. The Scheme, however, will use the derivative instruments very judiciously and keep in mind the overall objective the scheme.

For details of risk factors relating to use of Derivatives, the investors are advised to refer to Scheme Specific Risk Factors.

For further details regarding concepts and examples of derivatives that may be used by the fund manager, please refer to SAI.

Securitisation

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. A typical process of asset securitisation involves sale

	<p>of specific Receivables to a Special Purpose Vehicle (SPV) set up in the form of a trust or a company. The SPV in turn issues financial instruments (e.g., promissory notes, pass through certificates or other debt instruments) to investors, such instruments evidencing the beneficial ownership of the investors in the Receivables. The financial instruments are rated by an independent credit rating agency. An Investor’s Agent is normally appointed for providing trusteeship services for the transaction.</p> <p>On the recommendation of the credit rating agency, additional credit support (Credit Enhancement) may be provided in order that the instrument may receive the desired level of rating. Typically the servicing of the Receivables is continued by the seller in the capacity of the Servicer. Cash flows, as and when they are received, are passed onto the investors.</p> <p>Risk Control</p> <p>Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process.</p> <p>The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. Stock specific risk will be minimized by investing only in those companies that have been analyzed by the Investment Team at the AMC. For investments in debt securities, the AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous and in-depth credit evaluation of the securities proposed to be invested in, will be carried out by the investment team of the AMC. Rated Debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC will be guided but not limited by the ratings of Rating Agencies such as CRISIL, CARE, ICRA and Fitch or any other rating agencies that may be registered with SEBI from time to time. In case a debt instrument is not rated, investment will be in accordance with Guidelines approved by the Board. Further, all investments in the unrated paper are periodically reviewed by Investment Committee and the Board of AMC & Trustee Company.</p> <p>The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by SEBI, in an attempt to protect the value of the portfolio and enhance Unitholders’ interest.</p> <p>Portfolio Turnover</p> <p>The Scheme is an open-ended scheme. It is expected that there would be a number of subscriptions and redemptions on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.</p>
<p>Risk Profile of the scheme</p>	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Investment in Mutual fund schemes involves certain Scheme specific Risk Factors which are summarized below:</p> <p>Investment in debt and money market instruments are subject to Interest Rate Risk, Credit Risk, Spread Risk, Liquidity Risk, Counterparty, Risk and Re-investment Risk.</p> <p>As the price / value / interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Other risks include risk of mispricing or improper valuation and the inability of the derivative to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price. For detailed risk factors, please refer to the SID.</p> <p><u>Backstop facility in form of investment in Corporate Debt Market Development Fund (CDMDF):</u></p> <p>CDMDF is set up as a scheme of the Trust registered as an Alternative Investment Fund (‘AIF’) in accordance with the SEBI (Alternative Investment Funds) Regulations, 2012 (“AIF Regulations”). The objective of the CDMDF is to help to develop the corporate debt market by providing backstop facility to instill confidence amongst the market participants in the</p>

	<p>corporate debt/bond market during times of market dislocation and to enhance the secondary market liquidity. In times of market dislocation, CDMDf shall purchase and hold eligible corporate debt securities from the participating investors (i.e., specified debt-oriented MF schemes to begin with) and sell as markets recover. The CDMDf will thus act as a key enabler for facilitating liquidity in the corporate debt market and to respond quickly in times of market dislocation. The trigger and period for which the backstop facility will be open shall be as decided by SEBI. Thus this backstop facility will help fund managers of the aforementioned Schemes to better generate liquidity during market dislocation to help the schemes fulfill liquidity obligations under stress situation.</p> <p>Investors are requested to read details disclosure on investment of the schemes in the CDMDf as listed in sub- section “C. How will the Scheme allocate its assets? And sub-section D. Where will the Scheme Invest” in Section “Section II- Information about the scheme” of SID</p> <p>For details on risk factors and risk mitigation measures, please refer SID.</p>
<p>Plans & Options</p>	<p>The Scheme offers two Plans – Regular Plan & Direct Plan.</p> <p>Direct Plan is only for investors who purchase /subscribe Units in the Scheme directly with the Fund and is not available for investors who route their investments through a Distributor and is offered in accordance with paragraph 2.5 of SEBI Master Circular.</p> <p>Each Plan has two Options, viz., Growth Option and Income Distribution cum Capital Withdrawal Option (IDCW).</p> <p>IDCW Option has the following facilities:</p> <ol style="list-style-type: none"> i. Quarterly Payout of Income Distribution cum Capital Withdrawal option (Quarterly IDCW- Payout); ii. Quarterly Reinvestment of Income Distribution cum Capital Withdrawal option (Quarterly IDCW- Reinvestment); iii. Transfer of Income Distribution cum Capital Withdrawal plan (IDCW- Transfer)# <p>#No fresh application under IDCW Transfer Facility is accepted w.e.f. March 08, 2016.</p> <p>Default Option/facility:</p> <p>The investor must clearly specify his/her choice of Option/facility in the application form, in the absence of which, the Default Option/facility would be applicable and the application will be processed accordingly:</p> <p>Default Option: Growth Option (if the investor has not indicated choice between ‘Growth’ or ‘IDCW’ Options).</p> <p>Default facility Under IDCW Option: Quarterly IDCW - Reinvestment</p> <p>All plans/options under the Scheme shall have common portfolio.</p> <p>Kindly refer SAI for detailed disclosure on:</p> <ol style="list-style-type: none"> i. Default plans and options; ii. Treatment of purchase/switch/ Systematic Investment Plans (SIPs)/ Systematic Transfer Plans (STPs) transactions received through distributors who are suspended temporarily or terminated permanently by AMFI. iii. <p>Unitholders’ Information</p>	<p>(i) Accounts Statements:</p>																

The AMC shall send an allotment confirmation specifying the units allotted by way of email and/or SMS within 5 working days of receipt of valid application/transaction to the Unit holders registered e-mail address and/ or mobile number (whether units are held in demat mode or in account statement form).

A Consolidated Account Statement (CAS) detailing all the transactions across all mutual funds and holding at the end of the month shall be sent to the Unit holders in whose folio(s) transaction(s) have taken place during the month by mail or email on or before 15th of the succeeding month.

Half-yearly CAS shall be issued at the end of every six months (i.e. September/ March) on or before 21st day of succeeding month, to all investors providing the prescribed details across all schemes of mutual funds and securities held in dematerialized form across demat accounts, if applicable.

(ii) Annual Financial Results:

The Scheme wise annual report or an abridged summary thereof shall be provided to all Unit holders not later than 4 months (or such other period as may be specified by SEBI from time to time) from the date of closure of the relevant accounting year (i.e., 31st March each year). Scheme wise annual report shall be displayed on the website of the AMC (<https://www.pgimindia.com/mutual-funds>) and Association of Mutual Funds in India (<https://www.amfiindia.com>).

In case of unitholders whose email addresses are available with the Mutual Fund, the scheme annual reports or abridged summary would be sent only by email. Unitholders whose email addresses are not available with the Mutual Fund will have an option of receiving a physical copy of scheme annual reports or abridged summary by post/courier. The AMC shall provide a physical copy of scheme annual report or abridged summary without charging any cost, upon receipt of a specific request from the unitholders, irrespective of registration of their email addresses. Physical copies of annual report will also be available to unitholders at the registered office at all times. The full annual report shall be available for inspection at the Head Office of the Mutual Fund and a copy shall be made available to the Unit holders on request on payment of nominal fees, if any.

The AMC shall publish an advertisement every year, in the all India edition of at least two daily newspapers, one each in English and Hindi, disclosing the hosting of the scheme wise annual report on the AMC website (<https://www.pgimindia.com/mutual-funds>) and on the website of AMFI (<https://www.amfiindia.com>).

(iii) Fortnightly/Monthly/Half -yearly Portfolio:

The Mutual Fund / AMC shall disclose portfolio (along with ISIN) of the Scheme on fortnightly basis (as on 15th & last day of each month) within 5 days of every fortnight, monthly basis within 10 days from end of each month (i.e. last day of each month) and half yearly basis within 10 days of each half year (i.e. 31st March & 30th September) on website of Mutual Fund Fortnightly portfolio - <https://www.pgimindia.com/mutual-funds/disclosures/Portfolios/Fortnightly-portfolio> Monthly Portfolio - <https://www.pgimindia.com/mutual-funds/disclosures/Portfolios/Monthly-Portfolio> and Half yearly portfolio - <https://www.pgimindia.com/mutual-funds/disclosures/Financial-Statements/Scheme-Financials> and on the website of AMFI (<https://www.amfiindia.com>) in a user-friendly and downloadable spreadsheet format.

In case of Unitholders whose e-mail addresses are registered, the Mutual Fund / AMC shall send via email the fortnightly statement of scheme portfolio within 5 days from the close of each fortnight and the monthly and half-yearly statement of scheme portfolio within 10 days from the close of each month / half-year respectively.

The AMC shall publish an advertisement every half-year, in the all India edition of at least two daily newspapers, one each in English and Hindi, disclosing the hosting of the half yearly statement of the schemes portfolio on the AMC's website <https://www.pgimindia.com/mutual-funds>, and on the website of AMFI (<https://www.amfiindia.com>). The AMC shall provide physical copy of the statement of scheme portfolio without any cost, on specific request received from a unitholder.
