2.	Securitized Debt*	Investment in Securitised Debt would be up to a maximum of 3.5% of the net assets of the Scheme. The Scheme will not invest in foreign securitised debt.	Paragraph 12.15 of SEBI Master Circular for Mutual Funds.
5.	Securities lending and Borrowing	The Scheme will not engage in stock lending	—
6.	Short selling of securities	The Scheme will not indulge in short selling	—
7.	Overseas securities	The Scheme will make investments in foreign securities	Paragraph 12.19 of SEBI Master Circular for Mutual Funds.
8.	Other/own mutual funds	The scheme may invest in the units of Mutual Fund Schemes. Such investment shall not exceed 5% of the net asset value of the Fund.	Seventh Schedule of SEBI (Mutual Funds) Regulations, 1996

The scheme will not indulge in unrated debt instruments.

The Scheme shall not invest in any underlying scheme/s which invests more than 10% of the NAV in the unlisted equity shares or equity related instruments.

In terms of paragraph 12.24 of SEBI Master Circular for Mutual Funds, the cumulative gross exposure through equity, debt, money market instruments and derivative positions, repo transactions in corporate debt securities and other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time shall not exceed 100% of the net assets of the scheme.

Overseas Investments by the Scheme:

According to paragraph 12.19 of SEBI Master Circular for Mutual Funds, mutual funds can invest in ADRs/GDRs/other specified foreign securities.

As per paragraph 12.19 of SEBI Master Circular for Mutual Funds, such investments are subject to an overall limit of US\$ 7 billion for all mutual funds put together. The Mutual Funds have been allowed an individual limit of US\$ 1 billion for overseas investments. The Scheme may, with the approval of SEBI/ RBI invest in foreign securities as specified by SEBI. The overall ceiling for investment in overseas ETFs that invest in securities is US \$ 1 billion subject to a maximum of US \$ 300 million per mutual fund.

The AMC is allowed to invest in overseas securities upto 20% of the average Asset Under Management ('AUM') in overseas securities of the previous three calendar months subject to maximum limit of USD 1 billion per Mutual Fund. The above limits shall be considered as soft limits for the purpose of reporting only by Mutual Funds on monthly basis as per paragraph 12.19.1 of SEBI Master Circular for Mutual Funds.

Please refer to "Specific Risk Factors" for details on the risk factors associated with Overseas Investment.

The Mutual Fund may, where necessary appoint intermediaries as sub-managers, sub-custodians, etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses.

The dedicated fund manager appointed for making overseas investments by the Mutual Fund will be in accordance with the applicable requirements of SEBI.

Portfolio Rebalancing:

As per paragraph 2.9 of SEBI Master Circular for Mutual Funds, as may be amended/ clarified from time to time, in the event of passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager is required to carry out portfolio rebalancing within thirty (30) business days. In case the portfolio is not rebalanced within the period of thirty (30) business days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall follow the requirements specified under the aforesaid regulation including reporting the deviation to Trustees at each stage.

Short term defensive consideration:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations in line with paragraph 1.14.1.2(b) of SEBI Master Circular for Mutual Funds and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

B. WHERE WILL THE SCHEME INVEST?

The securities may be acquired from primary market/ Initial Public Offer (IPO), secondary market operations, private placement or negotiated deals.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The scheme will predominantly invest in the units of PGIM Jennison Emerging Markets Equity Fund (the Underlying Fund).

About PGIM Jennison Emerging Markets Equity Fund (the Underlying Fund):

- **Investment objective and policy:-**

The Fund aims to seek long-term growth of capital. The Fund will seek to achieve its investment objective by investing primarily in equity and equity-related securities of companies located in or otherwise economically tied to emerging markets countries. The Fund may invest a large portion of its assets in a single country or region.

The benchmark of the Fund is the MSCI Emerging Markets Index, however, the sub- investment manager has discretion over the investments of the Fund. The Fund will be actively managed and does not intend to track the benchmark. The benchmark is being used by the Fund for performance comparison purposes only.

In determining which securities to buy and sell, the sub-investment manager analyzes individual companies that are located in or otherwise economically tied to emerging markets countries that it believes are in the early stages of acceleration in their growth due to: innovation in a technology, product, or service that disrupts the existing competitive landscape of an industry; a new product cycle or market expansion; acceleration in industry growth; an increase in the market for a company's product or service; leadership in a market niche; or benefits of a company's organizational restructuring.

The Fund can invest without limit in non-U.S. equity and equity-related securities, typically invests in a number of different countries, and will invest a significant portion of its assets in companies located in emerging markets. Because the Fund may invest a large portion of its assets in a single country or region of the world, the Fund's investments may be geographically concentrated. This can result in more pronounced risks based upon economic conditions that impact one or more countries or regions more or less than other countries or regions.

The Fund may also hold cash, on an ancillary basis, and invest in money market instruments, which may comprise fixed term deposits, investment grade fixed and floating rate instruments including (but not limited to) certificates of deposit, banker acceptances, freely transferable promissory notes, commercial paper, floating rate notes, debentures, asset backed commercial paper, government bonds, corporate bonds, asset backed securities and money market funds. The Fund may not be leveraged in excess of 100% of its net asset value, through the use of derivatives.

Securitisation - concept

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. A typical process of asset securitisation involves sale of specific Receivables to a Special Purpose Vehicle (SPV) set up in the form of a trust or a company. The SPV in turn issues financial instruments (e.g., promissory notes, pass through certificates or other debt instruments) to investors, such instruments

evidencing the beneficial ownership of the investors in the Receivables. The financial instruments are rated by an independent credit rating agency. An Investor's Agent is normally appointed for providing trusteeship services for the transaction.

On the recommendation of the credit rating agency, additional credit support (Credit Enhancement) may be provided in order that the instrument may receive the desired level of rating. Typically the servicing of the Receivables is continued by the seller in the capacity of the Servicer. Cash flows, as and when they are received, are passed onto the investors.

Risk Control

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process.

The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. Stock specific risk will be minimized by investing only in those companies that have been analyzed by the Investment Team at the AMC. For investments in debt securities, the AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous and in-depth credit evaluation of the securities proposed to be invested in, will be carried out by the investment team at the AMC. Rated Debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC will be guided but not limited by the ratings of Rating Agencies such as CRISIL, CARE, ICRA and Fitch or any other rating agencies that may be registered with SEBI from time to time. In case a debt instrument is not rated, investment will be in accordance with Guidelines approved by the Board. Further, all investments in the unrated paper are periodically reviewed by Investment Committee and the Board of AMC & Trustee Company.

The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by SEBI, in an attempt to protect the value of the portfolio and enhance Unitholders' interest.

Portfolio Turnover

Portfolio turnover is defined as the aggregate of purchases and sales as a percentage of the corpus of the Scheme during a specified period of time. Portfolio turnover in the Scheme will be a function of market opportunities. The economic environment changes on a continuous basis and exposes debt portfolio to systematic as well as nonsystematic risk. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.

The Investment Manager will endeavor to optimise portfolio turnover to optimise risk adjusted return keeping in mind the cost associated with it. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for scrip/securities held in the portfolio rather than an indication of a change in AMC's view on a scrip, etc.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Benchmark (Total Returns Index): MSCI Emerging Markets Index TRI.

PGIM Jennison Emerging Markets Equity Fund seeks long-term growth of capital through investment in companies in the early stages of acceleration in their growth, located in emerging markets countries. The MSCI Emerging Markets Index captures large and mid cap representation across 26 Emerging Markets (EM) countries. With 1,387 constituents, the index covers approximately 85% of the free float-adjusted market capitalization in each country..

The Trustee/AMC reserves the right to change the benchmark for evaluating the performance of the Scheme from time to time, in conformity with the investment objective of the Scheme and the appropriateness of the benchmark, subject to SEBI guidelines and other prevalent guidelines.

E. WHO MANAGES THE SCHEME?

G. HOW HAS THE SCHEME PERFORMED?

Performance of scheme as on September 30, 2025:

Compounded Annualised Returns ^{^^}	Regular Plan Returns [^] (%)	Direct Plan Returns [^] (%)	Benchmark Returns [#] (%)
Returns for the last 1 year	20.03	21.16	24.43
Returns for the last 3 years	16.94	18.16	21.69
Returns for the last 5 years	3.98	5.10	11.13
Returns for the last 10 years	4.12	5.28	11.32
Return since Inception	3.36	-	8.23
	-	5.94	8.47

Past performance may or may not be sustained in future and should not be used as a basis for comparison with other investments.

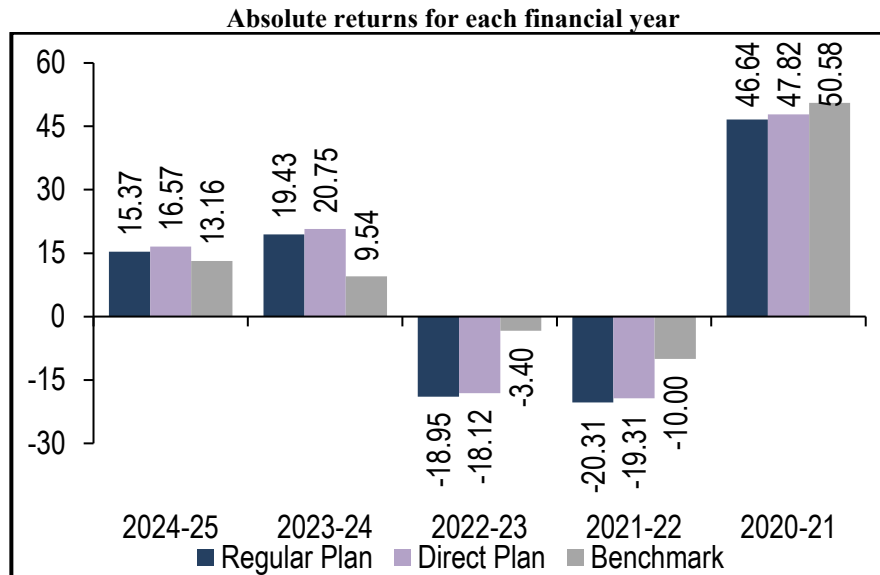

[^] Returns are calculated on Growth Option NAV.

^{^^} Returns are calculated on Compounded Annualised basis for a period of more than a year and on an absolute basis for a period of less than or equal to a year.

Returns for the benchmark have been calculated using TRI value

[#] MSCI Emerging Markets Index TRI

Date of Inception: Regular Plan: September 11, 2007, Direct Plan: January 01, 2013.

Returns are computed from the date of allotment/1st April, as the case may be, to 31st March of the respective financial year.

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

NAV of Units under the Scheme will be calculated by following method:

NAV (Rs.) =	Market or Fair Value of Scheme’s investments + Current Assets - Current Liabilities and Provisions
	No. of Units outstanding under the Scheme

The numerical illustration of the above method is provided below:

Market or Fair Value of Scheme’s investment (Rs.) = 1,15,12,05,600.00
 Current Assets (Rs.) = 60,00,000.00
 Current Liabilities (Rs.) = 40,00,000.00
 No of units Outstanding under the scheme = 10,00,00,000

$$\text{NAV Per Unit (Rs.)} = \frac{115,12,05,600 + 60,00,000 - 40,00,000}{10,00,00,000} = 11.53$$

The NAV shall be calculated up to two decimal places. However the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Plan/Option. The AMC will calculate and disclose the NAV of the Scheme on all the Business Days.

The valuation of the Scheme’s assets and computation of the Scheme’s NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Methodology for calculation of sale and re-purchase price of the units of mutual fund scheme:

<p>Ongoing price for subscription (purchase)/ switch-in (from other Schemes of the Mutual Fund) by investors.</p> <p>This is the price you need to pay for purchase /switch-in.</p>	<p>At the applicable NAV.</p> <p>Ongoing Price for subscription = Applicable NAV*(1+ Entry Load, (if any))</p> <p>Example:</p> <p>If the Applicable NAV is Rs.10, Entry Load is nil then sales price will be</p> <p>= Rs. 10* (1+0)</p> <p>= Rs. 10</p>
<p>Ongoing price for redemption (sale) /switch outs (to other schemes of the Mutual Fund) by investors.</p> <p>This is the price you will receive for redemptions/switch outs.</p>	<p>At the applicable NAV, subject to prevailing exit load.</p> <p>Redemption Price = Applicable NAV*(1- Exit Load, (if any))</p> <p>Example:</p> <p>If the Applicable NAV is Rs.10, Exit Load is 1% then redemption price will be</p> <p>= Rs. 10* (1-0.01)</p> <p>= Rs. 9.90</p>

The Redemption Price will not be lower than 97% of the NAV or as permitted / prescribed under the SEBI Regulations from time to time.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. Kindly refer SAI.

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. all such expenses are borne by the AMC.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include the Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' Fee, marketing and selling costs etc. as given below.

The AMC has estimated that up to 2.25 % of the daily net assets of the scheme will be charged to the scheme as expenses.

Operating & recurring expenses under regulation 52 (6) & 52 (6A):

- a) The total expense ratio of the Scheme, excluding issue or redemption expenses, whether initially borne by the mutual fund or by the AMC, but including weighted average of the total expense ratio levied by the underlying scheme and the investment management and advisory fee shall not exceed 2.25% of the daily net assets of the Scheme. Provided that the total expense ratio to be charged over and above the weighted average of the total expense ratio of the underlying scheme shall not exceed two times the weighted average of the total expense ratio levied by the underlying scheme(s), subject to 2.25% of daily net assets.
- b) In addition to the annual recurring expenses stated in (a) above, the following costs or expenses may be charged to the Scheme:-
 - i. Brokerage and transaction cost incurred for the purpose of execution shall be charged to the schemes as provided under Regulation 52 (6A) (a) upto 0.12 percent and 0.05 per cent for cash market transactions and derivatives transactions respectively. Any payment towards brokerage & transaction costs, over and above the said 0.12 per cent and 0.05 per cent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.
 - ii. Additional expenses not exceeding 0.05 per cent of daily net assets of the scheme, towards the investment and advisory fees or various other permissible expenses; (It may be noted that these expenses will not be charged in case the scheme does not charge an exit load).

Within such total recurring expenses charged to the Scheme as above, the investment management and advisory fee (charged as a percentage of daily net assets) would be as decided by the AMC from time to time, provided that the investment management and advisory fee shall not exceed the aggregate of expenses charged under clause (a) and (b) (iii) above.

In terms of paragraph 10.1.16 of SEBI Master Circular for Mutual Fund, the AMC shall annually set apart at least 0.02% on daily net assets within the maximum limit of recurring expenses as per Regulation 52 for investor education and awareness initiatives.

As per paragraph 3.1.2 of SEBI Master Circular for Mutual Funds, AMCs shall not enter into any revenue sharing arrangement with the underlying fund in any manner and shall not receive any revenue by whatever means/ head from the underlying fund. Any commission or brokerage received from the underlying fund shall be credited into concerned scheme's account.

The maximum annual recurring expenses of the Scheme including the investment management and advisory fee (together with additional management fee wherever applicable) shall not exceed the limit stated in Regulation 52 read with paragraph 10.1 of SEBI Master Circular for Mutual Fund, as explained above.

Goods and Services tax (GST):-

- AMC may charge GST on investment and advisory fees of the Scheme in addition to the maximum limit of TER as per the Regulation 52(6) and (6A).
- GST on expenses other than investment and advisory fees: AMC may charge GST on expenses other than investment and advisory fees of the Scheme, if any within the maximum limit of TER as per the Regulation under 52(6) and (6A).
- GST on brokerage & transaction cost: GST on brokerage and transaction costs which are incurred for the purpose of execution of trade, will be within the limit of expenses as per the Regulation 52(6) and (6A). Further, the Goods and Services tax on exit load, if any, shall be paid out of the exit load proceeds and the exit load net of Goods and Services tax, if any, shall be credited back to the scheme.

All fees and expenses charged in the Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under the Regular Plan. The Direct Plan under the Scheme shall have a lower expense ratio as compared to the Regular Plan. Commission/ Distribution expenses will not be charged in case of Direct Plan. The Direct Plan shall also have separate NAV. For the actual current expenses being charged, the investor may refer to the website of the Mutual Fund (<https://www.pgimindia.com/mutual-funds>). Further, the disclosure of Total Expense Ratio (TER) on a daily basis shall also be made on the website of AMFI (<https://www.amfiindia.com>). The Mutual Fund would update the expense ratios on the website at least three business days prior to the effective date of the change. Additionally, TER is also available on website <https://www.pgimindia.com/mutual-funds>.

The AMC has estimated the following total expenses for the first Rs. 500 Crores of the daily net assets of the Scheme:-

Expense Head	% of daily Net Assets
Investment Management and Advisory Fees	Upto 2.25%
Trustee fee	
Audit fees	
Custodian fees	
RTA Fees	
Marketing & Selling expense incl. agent commission	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost of providing account statements and IDCW redemption cheques and warrants	
Costs of statutory Advertisements	
Cost towards investor education & awareness (at least 2 bps)	
Brokerage & transaction cost over and above 12 bps for cash market trades	
Goods and Services tax on expenses other than investment and advisory fees	
Goods and Services tax on brokerage and transaction cost	
Charges levied by Underlying Scheme	
Other Expenses*	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c)	
Additional expenses under regulation 52 (6A) (c)	Upto 0.05%**

*Any other expenses which are directly attributable to the Scheme, except those expenses which are specifically prohibited, may be charged with the approval of the Trustee within the overall limits specified in the SEBI (Mutual Funds) Regulations.

** It may be noted that these expenses will not be charged in case the scheme does not charge an exit load.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that an investor in the Scheme will bear directly or indirectly. The above expenses (including Investment Management and Advisory Fees) are subject to inter-se change and may increase/decrease as per actual and/or any change in the Regulations. The AMC will strive to reduce the level of these expenses so as to keep them well within the maximum limit allowed by SEBI. All types of expenses charged to the Scheme shall be in accordance with the SEBI (MF) Regulations.

The entire exit load (net of Goods and services tax), charged, if any, shall be credited to the Scheme.

Illustration of impact of expense ratio on scheme's returns

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year (in Rs.)	10,000.00	10,000.00
Returns after Brokerage and Transaction Cost but before other expenses and Investment Management and Advisory Fees (in Rs.)	1,000.00	1,000.00
Returns after Brokerage and Transaction Cost but before other expenses and Investment Management and Advisory Fees (%)	10.00%	10.00%
Distribution Expenses (in Rs.)	150.00	0.00
Expenses other than Distribution Expenses (in Rs.)	20.00	20.00
Investment Management and Advisory Fees (in Rs.)	60.00	60.00
Returns after Brokerage and Transaction Cost ,other expenses and Investment Management and Advisory Fees (in Rs.)	770.00	920.00

The present illustration is calculated pursuant to the requirements of paragraph 5.8.2.2 of SEBI Master Circular for Mutual Funds. The purpose of an illustration is to purely explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments. Actual returns on your investment may be more, or less. The expenses of the Direct Plan under the Scheme will be lower to the extent of distribution expenses/commission. The NAVs published by the AMC are net of scheme expenses and they reflect return on investment to investors, provided investment is not subject to exit load. Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.

The investors shall bear the recurring expenses of the scheme, in addition to the expenses of the underlying scheme.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time.

The load structure of the Scheme is as follows:

Type of Load	Load chargeable (as % age of NAV)
Entry	NIL
Exit	<ul style="list-style-type: none"> • For Exits within 90 days from date of allotment of units : 0.50%. • For Exits beyond 90 days from date of allotment of units : NIL

The entire exit load (net of Goods and Services Tax), charged, if any, shall be credited to the Scheme.

The AMC/Trustee reserves the right to change / modify the Load structure of the Scheme, subject to maximum limits as prescribed under the Regulations.

Exit Load for switches within the Scheme:

- Where the investments are routed through a distributor (i.e. made with distributor code) any Switch of Units from the Regular Plan to Direct Plan shall not be subject to applicable exit load; However, after the switch, exit load prevailing on the date of the switch shall apply for subsequent redemption from the Direct Plan.
- Where investments are made directly i.e. without any distributor code, exit load will not be levied on switch of Units from Regular Plan to Direct Plan. In such cases, after the switch, exit load prevailing on the date of the switch shall apply for subsequent redemption from Direct Plan, if any;
- No exit load shall be levied in case of switch of Units from Direct Plan to Regular Plan. However, after the switch, exit load prevailing on the date of the switch shall apply for subsequent redemption from the Regular Plan.

The Switches would be done at the Applicable NAV based prices and the difference between the NAVs of the two Plans/Options will be reflected in the number of units allotted.

Any change in the load structure shall be applicable on prospective investments only. For any change in load structure, the AMC will issue an addendum and display it on its Website (<https://www.pgimindia.com/mutual-funds>) and Investor Service Centers. The addendum will also be circulated to all the distributors / brokers, so that the same can be attached to all SIDs and Key Information Memorandum in stock till the same is updated and reprinted. The AMC would make arrangements to display the addendum to the SID in the form of a notice at all the Investor Service Centers. The introduction/change in the Exit Load would be disclosed in the statement of accounts issued after the introduction of such Load. Any other measures which the Mutual Fund may feel necessary would be undertaken.

The investors are requested to check the prevailing load structure of the Scheme before investing. *For the current applicable exit load structure, please refer to the website of the AMC (<https://www.pgimindia.com/mutual-funds>) or may call at 1800 209 7446 (toll free no.) or your distributor.*

I. Introduction

A. Definitions/interpretation

For detailed description please click the link: <https://www.pgimindia.com/mutual-funds/disclosures/Other-Disclosures/Others/SID-KIM-SAI-related-Disclosure>

Interpretation

For all purposes of this SID, except as otherwise expressly provided or unless the context otherwise requires:-

- All references to the masculine shall include the feminine and all references to the singular shall include the plural and vice versa.
- All references to “Dollars” or “\$” or USD refer to Dollars of United States of America and “Rs.” or INR refer to Indian Rupees. A “Crore” means “ten million” and a “lakh” means a “hundred thousand”.
- All references to timings relate to Indian Standard Time (IST).
- References to a day are to a calendar day, including a non-Business Day.
- All references to “Master Circular” refer to Master Circular for Mutual Funds issued by SEBI dated June 27, 2024 as amended from time to time.

B. Risk factors

i. STANDARD RISK FACTORS:

For Standard Risk Factors, kindly refer Statement of Additional Information (SAI).

ii. SCHEME SPECIFIC RISK FACTORS

Some of the Scheme specific risk factors include, but not limited, to the following:-

1. Risk associated with investing in Fixed Income Securities

- **Interest Rate Risk:** Market value of fixed income securities is generally inversely related to interest rate movement. Accordingly, value of portfolio of the scheme may fall if the market interest rate rise and may appreciate when the market interest rate comes down.
- **Credit Risk:** - This is risk associated with default on interest and /or principal amounts by issuers of fixed income securities. In case of a default, scheme may not fully receive the due amounts and NAV of the scheme may fall to the extent of default.
- **Spread Risk:** - Credit spreads on corporate bonds may change with varying market conditions. Market value of debt securities in portfolio may depreciate if the credit spreads widen and vice – versa. Similarly, in case of floating rate securities, if the spreads over the benchmark security / index widen, then the value of such securities may depreciate.
- **Liquidity Risk:** - Liquidity condition in market varies from time to time. In an environment of tight liquidity, necessity to sell securities may have higher than usual impact cost. Further, liquidity of any particular security in portfolio may lessen depending on market condition, requiring higher discount at the time of selling.

- **Counterparty Risk:** - This is the risk of failure of counterparty to a transaction to deliver securities against consideration received or to pay consideration against securities delivered, in full or in part or as per the agreed specification. There could be losses to the Scheme in case of a counterparty default.
- **Re-investment Risk:** - Investment in fixed income securities carries re-investment risk. Interest rates prevailing on the coupon payment or maturity date may differ from the purchase yield of the security. This may result in final realized yield to be lower than that expected at the time of purchase.

Risks envisaged and Mitigation measures for repo transactions :-

- Counterparty Risks - Risks could arise if the Counterparty does not return the security (in a borrowing transaction) as contracted or pay interest (lending transaction) on the due date. This risk is largely mitigated, as the choice of counterparties is 'restricted' and their credit ratings and overall credit risk levels are taken into account before entering into such transactions.
 - Settlement Risks - Operational risks are lower as such trades are settled on a DVP (Delivery versus Payment – Safe settlement) basis. The trades are settled on a bilateral basis in the OTC segment.
 - Collateral / Credit Risk - In the event of the scheme being unable to pay back the money to the Counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin) and the net proceeds if any after such disposal may be refunded to the scheme. The value of the collateral will be monitored on a daily basis and shortfalls if any will lead to demand on the counterparty to top up collateral. In ability to comply with top up requests could lead to liquidation of security / collateral and an early / premature termination of the agreement.
- The Scheme at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
 - **Risks associated with unrated instruments:** - Investments in unrated instruments are subject to the risk associated with investments in any other fixed income securities, as referred above. However, investments in unrated instruments are considered to be subject to greater risk of loss of principal and interest than rated instruments.

2. Risk associated with Overseas Investment

- Subject to necessary approvals and within the investment objectives of the Scheme, the Scheme may invest in overseas markets which carry a risk on account of fluctuations in the foreign exchange rates, nature of securities market of the country, repatriation of capital due to exchange controls and political circumstances.
- It is the AMC's belief that investment in Permitted Foreign Securities offers new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme would invest in Permitted Foreign Securities including but not limited to units/ securities issued by overseas mutual fund or unit trusts which are registered with the overseas regulator, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme. To manage risks associated with foreign currency and interest rate exposure, the Scheme may use derivatives in accordance with conditions as may be stipulated by SEBI/RBI from time to time.
- Offshore investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Scheme in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing.

- To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment. Due to time zone differences, NAV of investee scheme in such cases may not be available for the same day.
- The liquidity of the Scheme's investments may be potentially restricted by the liquidity of the underlying schemes in which it has invested.
- The Investors shall bear the recurring expenses of the Scheme in addition to those of the underlying schemes. Therefore, the returns that they may receive may be materially impacted or may, at times, be lower than the returns that the investors directly investing in the underlying schemes could obtain.
- The disclosures of portfolio for the Scheme will be limited to the particulars of the underlying schemes and money market securities where the Scheme has invested. Investors may, therefore, not be able to obtain specific details of the investments of the underlying schemes.
- Any change in the investment policies or fundamental attributes of any underlying scheme or the performance of the underlying scheme is likely to affect the performance of the Scheme.
- The value of the underlying scheme will be affected by economic, political, market, exchange and issuer specific changes in foreign countries. Such changes may adversely affect securities, regardless of company specific performance. Additionally, different sectors and securities can react differently to these changes. Such fluctuations of the underlying scheme's value are often exacerbated in the short term as well. The risk that one or more companies in the underlying scheme's portfolio will fall, or fail to rise, can adversely affect the overall performance of the Scheme.
- As a predominant share of the underlying fund's assets are invested in equities, the Scheme will have all the risks associated with investing in equities and the offshore markets.
- The investment limit in foreign securities currently applicable to Mutual Fund under paragraph 12.19 of SEBI Master Circular for Mutual Funds, if overall limit for the Mutual Fund in overseas securities reaches USD 1 billion or the overall limit for Mutual Fund Industry in overseas securities reaches USD 7 billion, then Mutual Fund will not be able to invest in overseas securities / will not be able to do incremental overseas investment, unless such limit is increased or further directions is received from SEBI or RBI in this regard. It may be noted that the cap of USD 1 billion will be monitored and enforced at the Mutual Fund level and not at the individual scheme level.

3. A. Risk Associated with PGIM Jennison Emerging Markets Equity (the Underlying fund):

- **Liquidity Risk** on account of investments in international funds: The investments are made in international funds, which provide daily liquidity. However there exists a possibility that different settlement cycles and foreign exchange conversion could lead to delay in receipt of redemption proceeds. To mitigate this risk, daily cash management monitoring is performed by taking into consideration future cash flows on account of redemptions as well as subscriptions into/from the domestic fund. The endeavor is to maintain an adequate liquidity cushion in Indian Rupee terms by making investments in very short term money market instruments and/or liquid schemes in India.
- **Expense Risks** associated with investments in international funds: Any increase in the expense structure of the international funds is not expected to have any impact as the aggregate of expenses incurred by the Indian Fund-of-Funds scheme and the underlying international funds is subject to limits prescribed by SEBI.
- **Portfolio Disclosure Risks** associated with investments in international fund: Although full portfolio disclosure is not available at the end of each month, top ten holdings are made available at the end of

each month for the international fund end of each month, top ten holdings are made available at the end of each month for the international fund.

- Investment Policy and/or fundamental attribute change risks associated with investments in international funds: Investments are made in such international funds, which have similar investment objectives to the domestic fund in India. However there exists possibility that there is a change in the fundamental attributes of the international fund. In such circumstances, the Investment Manager will seek to invest in other international funds, which have the same investment objective as the domestic fund.
- Special risk consideration related to international fund: To the extent of the investments in PGIM Jennison Emerging Markets Equity Fund, the risks of global equity will exist. The investors should note that these risks cannot be completely mitigated as these are international funds managed by Jennison Associates. However, as a part of our due diligence, we have chosen funds, which have long term performance track record, stability of fund management team and are accredited by third party funds evaluators like Morningstar.

B. Risk profile/ control of the Scheme with relation to PGIM Jennison Emerging Markets Equity Fund (the Underlying fund):

PGIM India Asset Management Private Limited (PGIM India AMC) is committed to a strong control and compliance environment and ensuring that the management structure is appropriate to the scale of the business. PGIM India AMC's fiduciary business is managed according to the rules and a regulation stipulated for Asset Management Companies by the Securities & Exchange Board of India (SEBI) and also incorporates PGIM India AMC's internal policies. The AMC has systems and processes to monitor all the investment restrictions specified by SEBI and in this document on a regular basis.

4. Risks associated with segregated portfolio

- Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer.
- Security comprising of segregated portfolio may not realise any value
- Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV

5. Risks associated with investing in Tri-Party Repo through CCIL (TREPS)

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall". As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members. Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

6. Risks associated with investment in Securitised Instruments:

Generally available Asset Classes for Securitisation in India are:

- Commercial Vehicles
- Auto and Two wheeler pools
- Mortgage pools (residential housing loans)
- Personal Loan, credit card and other retail loans

- Corporate loans/receivables

Investment exposure of the Fund with reference to Securitised Debt:

The Fund will predominantly invest only in those securitization issuances which have AAA rating indicating the highest level of safety from credit risk point of view at the time of making an investment. The Fund will not invest in foreign securitised debt.

The Fund may invest in various type of securitisation issuances, including but not limited to Asset Backed Securitisation, Mortgage Backed Securitisation, Personal Loan Backed Securitisation, Collateralized Loan Obligation/Collateralized Bond Obligation and so on.

The Fund does not propose to limit its exposure to only one asset class or to have asset class based sub-limits as it will primarily look towards the AAA rating of the offering.

Risk Factors specific to investments in Securitised and Structured Instruments:**Underlying risk**

Each asset class has a different underlying risk, however, residential mortgages are supposed to be having lower default rates. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Some of the asset classes such as personal loans, credit card receivables etc., being unsecured credits in nature, may witness higher default rates. As regards corporate loans/receivables, depending upon the nature of the underlying security for the loan or the nature of the receivable the risks would correspondingly fluctuate. However, the credit enhancement stipulated by rating agencies for such asset class pools is typically much higher and hence their overall risks are comparable to other similarly rated asset classes.

Limited Liquidity & Price Risk :

Presently, secondary market for securitised papers is not very liquid. There is no assurance that a deep secondary market will develop for such securities. This could limit the ability of the investor to resell them. Even if a secondary market develops and sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure.

Limited Recourse, Delinquency and Credit Risk:

Securitised transactions are normally backed by pool of receivables and credit enhancement as stipulated by the rating agency, which differ from issue to issue. The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and there is no obligation of either the Issuer or the Seller or the originator, or the parent or any affiliate of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of a Obligor to repay his obligation, the Servicer may repossess and sell the underlying Asset.

However many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realize the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.

Risks due to possible prepayments:

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. Full prepayment of underlying loan contract may arise under any of the following circumstances:

- Obligor pays the Receivable due from him at any time prior to the scheduled maturity date of that Receivable; or
- Receivable is required to be repurchased by the Seller consequent to its inability to rectify a material misrepresentation with respect to that Receivable; or
- The Servicer recognizing a contract as a defaulted contract and hence repossessing the underlying Asset and selling the same.

In the event of prepayments, investors may be exposed to changes in tenor and yield.

Bankruptcy of the Originator or Seller

If originator becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the sale from originator to Trust was not a sale then an Investor could experience losses or delays in the payments due. All possible care is generally taken in structuring the transaction so as to minimize the risk of the sale to Trust not being construed as a “True Sale”. Legal opinion is normally obtained to the effect that the assignment of Receivables to Trust in trust for and for the benefit of the Investors, as envisaged herein, would constitute a true sale.

Bankruptcy of the Investor’s Agent

If Investor’s agent, becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the recourse of Investor’s Agent to the assets/receivables is not in its capacity as agent/Trustee but in its personal capacity, then an Investor could experience losses or delays in the payments due under the swap agreement. All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by Investor’s Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor’s Agent. Legal opinion is normally obtained to the effect that the Investors Agent’s recourse to assets/receivables is restricted in its capacity as agent and trustee and not in its personal capacity.

Credit Rating of the Transaction/Certificate

The credit rating is not a recommendation to purchase, hold or sell the Certificate in as much as the ratings do not comment on the market price of the Certificate or its suitability to a particular investor. There is no assurance by the rating agency either that the rating will remain at the same level for any given period of time or that the rating will not be lowered or withdrawn entirely by the rating agency.

Risk of Co-mingling

The Servicers normally deposit all payments received from the Obligor into the Collection Account. However, there could be a time gap between collection by a Servicer and depositing the same into the Collection account especially considering that some of the collections may be in the form of cash. In this interim period, collections from the Loan Agreements may not be segregated from other funds of the Servicer. If the Servicer fails to remit such funds due to Investors, the Investors may be exposed to a potential loss. Due care is normally taken to ensure that the Servicer enjoys highest credit rating on standalone basis to minimize Co-mingling risk.

7. Risks factors associated with processing of transaction through Stock Exchange Mechanism:

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognised stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing/settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s).

8. Risk on Right to limit redemption:

Subject to the approval of Board of Directors of the AMC and Trustee Company and immediate intimation to SEBI, a restriction on redemptions may be imposed by the Scheme under certain exceptional circumstances, which the AMC / Trustee believe that may lead to a systemic crisis or event that constrict liquidity of most securities or the efficient functioning of markets (subject to lock in period, if any). Please refer to the paragraph “Right to Limit Redemptions” for further details.

9. Risks associated with investment in mutual fund units:

Investment in units of Mutual Fund scheme involves investment risks such as, but not limited to, trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal. The value of units of mutual fund scheme may fluctuate based on the price / value / interest rates of the underlying securities in which the mutual fund scheme invests. The value of underlying securities may be affected, inter-alia, by changes in market environment, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures. The NAV is also exposed to price/interest rate risk and credit risk and may be affected inter-alia, by the counterparty’s ability or willingness to meet its contractual obligations, government policy,

volatility and liquidity in the money markets and pressure on the exchange rate of the rupee. Investment in units of mutual fund scheme is also exposed to risk of suspension of subscriptions / redemptions of the units, change in fundamental attributes etc. Since the Scheme may invest in schemes of Mutual Funds, scheme specific risk factors of each such mutual fund scheme will be applicable to the Scheme portfolio.

C. Risk mitigation strategies

The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in debt markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Fund has identified following risks of investing in debt and designed risk management strategies, which are embedded in the investment process to manage such risks.

Nature of Risk	Risk Mitigation Measures by AMC
For making investment in fixed income and money markets	
<p>Credit Risk: Debt securities are subject to the risk of an issuer’s inability to meet principal and interest payments on the obligations.</p>	<p>The fund has a strong credit research process. The credit team analyses and approves each issuer before investment by the schemes. There is a regulatory and internal cap on exposure to each issuer. This ensures a diversified portfolio and reduced credit risk in the portfolio.</p>
<p>Liquidity Risk: The corporate debt market is relatively illiquid vis-à-vis the government securities market. Even though the government securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through.</p>	<p>The scheme is envisaged to be actively managed portfolios. The liquidity and volatility of a security are important criteria in security selection process. This ensures that liquidity risk is minimized.</p>
<p>Investing in unrated securities: Lower rated or unrated securities are more likely to react to developments affecting the market and the credit risk than the highly rated securities which react primarily to movements in the general level of interest rates. Lower rated securities also tend to be more sensitive to economic conditions than higher rated securities.</p>	<p>The scheme has a strong credit research process and as such all investments, rated or unrated, are analyzed and approved by the credit team before investment by the schemes. Further there is a regulatory and internal cap on exposure to unrated issuers, limiting exposure to unrated securities.</p>
<p>Settlement Risk: Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are not invested and no return is earned thereon.</p>	<p>The AMC has well laid out processes and systems, which mitigate operational risks attached with the settlement process.</p>
<p>Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Plans are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.</p>	<p>Reinvestment risk is an inherent feature of the portfolio management process. It may be managed, to a certain extent, by seeking to invest in securities with relatively low intermittent cash flows.</p>

II. Information about the scheme:

A. Where will the scheme invest –

The corpus of the Scheme will be invested in the units of underlying fund. The Scheme may invest its corpus in debt and money market instruments, to manage its liquidity requirements.

The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses.

The dedicated fund manager appointed for making overseas investments by the Mutual Fund will be in accordance with the applicable requirements of SEBI.

Position of Debt Market in India

The Indian debt market, one of the largest in Asia, is developing rapidly buoyed by a multitude of factors including new instruments, increased liquidity, deregulation of interest rates and improved settlement systems. The major players in the Indian debt markets today are banks, financial institutions, insurance companies, pension funds, provident funds and mutual funds. The instruments in the market can be broadly categorized as those issued by corporates, banks, financial institutions and those issued by state/central governments. The risks associated with any investments are - credit risk, interest rate risk and liquidity risk. While corporate papers carry credit risk due to changing business conditions, government securities carry zero credit risk. Interest rate risk is present in all debt securities and depends on a variety of macroeconomic factors. The largest segment of the Indian Debt market consists of the Government of India securities where the daily average trading volume is in excess of around Rs. 50,000 crores, with instrument tenors ranging from short dated Treasury Bills to long dated securities extending upto 50 years. The Corporate bond market, though relatively less liquid, is also fast developing with an increased participation from the banks, financial institutions, mutual funds, provident funds, insurance companies and corporate treasuries. Public Financial Institutions, Public Sector Undertakings and Private AAA Corporates are the major issuers. Corporate bonds majorly are issued as fixed rate bonds. The yield curve usually tends to be positive sloping i.e. yield of shorter dated securities being lower than that of longer dated ones.

The money markets in India essentially consist of call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at specified price), Tri-Party Repo, commercial papers (CPs, short term unsecured promissory note, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI). A predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates.

The various instruments currently available for investments are:

Issuer	Instrument	Maturity	Yields (%) as on November 13, 2025	Liquidity
GOI	Treasury Bill	91 days	5.39	High
GOI	Treasury Bill	364 days	5.53	High
GOI	Short Dated	1-3 Years	5.60 - 5.85	High
GOI	Medium Dated	3-5 Years	5.85 - 6.25	High
GOI	Long Dated	5-10 Years	6.25 - 6.60	High
Corporate	Taxable Bonds (AAA)	1-3 Years	6.55 - 6.70	Medium
Corporate	Taxable Bonds (AAA)	3-5 Years	6.70 - 6.85	Low to medium
Corporate	CPs (A1+)	3 months	6.05-6.10	Medium to High
Corporate	CPs (A1+)	1 Year	6.45-6.50	Medium

The actual yields will, however, vary in line with general levels of interest rates and debt/money market conditions prevailing from time to time.

B. What are the investment restrictions?

Pursuant to Regulations, specifically the Seventh Schedule and amendments thereto, the following investment restrictions are currently applicable to the Scheme:

- The Scheme shall not invest more than 10% of its net assets in debt instruments comprising money market & non money market instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the SEBI Act. Such investment limit may be extended to 12% of the net assets of the Scheme with the prior approval of the Trustees and the Board of the AMC. Such limit shall not be applicable for investments in government securities, treasury bills & Tri-party Repo. Provided further that investment within such limit can be made in mortgage backed securitised debts which are rated not below investment grade by a credit rating agency registered with SEBI. Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the Board from time to time.
- The Scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments and derivative products such as Interest Rate Swaps, Interest Rate Futures, etc. which are used by mutual fund for hedging: Provided that Mutual Fund Schemes may invest in unlisted non-convertible debentures up to a maximum of 10% of the debt portfolio of the scheme subject to such conditions as may be specified by SEBI from time to time:

Provided further that the norms for investments by mutual fund schemes in unrated debt instruments shall be specified by SEBI from time to time.

Note:

- a) SEBI vide paragraph 12.1 of Master Circular for Mutual Funds has issued following guidelines w.r.t investment in unlisted debt & money market instruments
 - b) Mutual fund scheme may invest in unlisted non-convertible debentures (NCDs) that have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.
 - c) All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed with effect from one month from the date of operationalization of framework for listing of CPs or January 01, 2020, whichever is later.
 - d) Investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the following

 - ii. Exposure of mutual fund schemes in such instruments, shall not exceed 5% of the net assets of the schemes.
 - iii. All such investments shall be made with the prior approval of the Board of AMC and Trustees.
- The Scheme may invest in another scheme of the Mutual Fund or any other mutual fund. The aggregate inter-scheme investment made by all the schemes under the same management or in schemes under management of any other asset management company shall not exceed 5% of the net asset value of the Fund. No investment management fees shall be charged by the Scheme for investing in other schemes of the Mutual Fund or in the schemes of any other mutual fund.
 - The Scheme shall not make any investment in:
 - a. Any unlisted Security of an associate or group company of the Sponsor; or
 - b. Any Security issued by way of private placement by an associate or group company of the Sponsor; or
 - c. the listed Securities of group companies of the Sponsor which is in excess of 25% of the net assets.
 - Transfer of investments from one scheme to another scheme in the Mutual Fund is permitted provided –
 - a) such transfers are done at the prevailing market price for quoted instruments on Spot Basis (Spot Basis shall have the same meaning as specified by a stock exchange for spot transactions); and
 - b) the Securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.

- c) The same are in line with paragraph 12.30 of SEBI Master Circular for Mutual Funds.
- The Mutual Fund shall get the Securities purchased or transferred in the name of the Fund on account of the Scheme, wherever investments are intended to be of a long-term nature.
 - The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases take delivery of the relevant securities and in all cases of sale, deliver the securities. The Mutual Fund may however engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI. Further that the Mutual Fund shall enter into derivatives transactions in a recognised stock exchange, subject to the framework specified by SEBI. The sale of government securities already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard.
 - The Scheme shall not invest in a Fund of Funds scheme.
 - Pending deployment of funds of a Scheme in terms of the investment objectives of the Scheme, the AMC may invest the funds of the Scheme in short term deposits of scheduled commercial banks in accordance with the guidelines set out by SEBI under the Regulations. The Scheme will comply with the following guidelines/restrictions for parking of funds in short term deposits:-
 - a. "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
 - b. Such short-term deposits shall be held in the name of the Scheme.
 - c. The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with the approval of the Trustee.
 - d. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
 - e. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - f. The Scheme shall not park funds in short-term deposit of a bank which has invested in the said Scheme. Further Trustees/AMC shall also ensure that a bank in which scheme has short term deposit does not invest in the Scheme until the Scheme has short term deposits with such bank.
 - g. AMC shall not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

However, the above provisions will not apply to term deposits placed as margins for trading in cash and derivatives market.

- Save as otherwise expressly provided under SEBI (Mutual Funds) Regulations, 1996, the Scheme shall not advance any loans.
- The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/redemption of Units or payment of interest to the Unit holders. Provided that the Fund shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 month.

All investment restrictions shall be applicable at the time of making investment. The AMC/Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

The AMC will credit the Units to the Beneficiary Account of Unit holder within five working days from the date of clearance of the investor's cheque.</p> <p>If a Unit holder desires to opt for dematerialization of units held under physical account statement at a later date, he will be required to make an application to AMC/ RTA/DP in Conversion Request Form (available on the website of the Mutual Fund or with the DPs) along with Statement of Account, a copy of Client Master Report (CMR) or Transaction Statement (only the page of Transaction Statement reflecting the name and pattern of holding) issued by its Depository Participant. Application for issue of Units in demat mode may be submitted to any of the OPAs / ISCs or DPs. The AMC will credit the Units to the Beneficiary Account of Unit holder within two working days from receipt of demat request.</p> <p>In case the unit holders do not provide their Demat Account details, or the demat details provided in the application form are incomplete / incorrect or do not match with the details with the Depository records, the Units will be allotted in physical account statement mode provided the application is otherwise complete in all respect and accordingly, an Account Statement shall be sent to them.</p>
<p>Minimum Target amount (This is the minimum amount required to operate the scheme and if this is not collected during the NFO period, then all the investors would be refunded the amount invested without any return.)</p>	<p>Not Applicable. The Scheme is open on an ongoing basis for subscription/ redemption at NAV based prices.</p>
<p>Maximum Amount to be raised (if any)</p>	<p>Not Applicable</p>
<p>Dividend Policy (IDCW)</p>	<p>Under the Income Distribution cum Capital Withdrawal option, the Trustee will have the discretion to declare the IDCW, subject to availability of distributable surplus calculated in accordance with the Regulations. Further investors are requested to note that the amounts can be distributed out of investors capital (Equalization Reserve) which is part of a sale price that represents realized gains. The actual declaration of IDCW and frequency will inter-alia, depend on availability of distributable surplus calculated in accordance with the Regulations and the decisions of the Trustee shall be final in this regard. There is no assurance or guarantee to the Unit holders as to the rate of IDCW nor that the IDCW will be paid regularly.</p> <p><u>IDCW Distribution Procedure</u></p> <p>In accordance with Chapter 11 of SEBI Master Circular for Mutual Fund the procedure for IDCW distribution would be as under:</p> <ol style="list-style-type: none"> 1. Quantum of IDCW and the record date will be fixed by the Trustee. IDCW so decided shall be paid, subject to availability of distributable surplus. 2. Within one calendar day of decision by the Trustee, the AMC shall issue notice to the public communicating the decision about the IDCW including the record date,

	<p>in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the head office of the Mutual Fund is situated.</p> <p>3. Record date shall be the date, which will be considered for the purpose of determining the eligibility of investors whose names appear on the register of Unit holders for receiving IDCW. The Record Date will be 2 business days from the date of issue of notice.</p> <p>4. The NAV will be adjusted to the extent of IDCW distribution and statutory levy, if any, at the close of business hours on record date.</p>
<p>Allotment (Detailed procedure)</p>	<p>All applicants will receive full and firm allotment of Units, provided the applications are complete in all respects and are found to be in order. The AMC retain the sole and absolute discretion to reject any application. <p>Restrictions, if any, on the right to freely retain or dispose of units being offered.</p>	<p><u>Pledge of Units:-</u></p> <p>The Units under the Scheme may be offered as security by way of a pledge / charge in favor of scheduled banks, financial institutions, non-banking finance companies (NBFC's), or any other body. The AMC/RTA will note and record such Pledged Units. A standard form for this purpose is available on request at all ISCs. The AMC shall mark a lien on the specified units only upon receiving the duly completed form and documents as it may require. Disbursement of such loans will be at the entire discretion of the bank / financial institution / NBFC or any other body concerned and the Mutual Fund assumes no responsibility thereof.</p> <p>The Pledgor will not be able to redeem/switch Units that are pledged until the entity to which the Units are pledged provides a written authorisation to the Mutual Fund that the pledge / lien/ charge may be removed. As long as Units are pledged, the Pledgee will have complete authority to redeem such Units. IDCW declared on Units under lien will be paid / re-invested to the credit of the Unit Holder and not the lien holder unless specified otherwise in the lien letter.</p>

For units of the Scheme held in electronic (Demat) form, the rules of Depository applicable for pledge will be applicable for Pledge/Assignment of units of the Scheme. Pledgor and Pledgee must have a beneficial account with the Depository. These accounts can be with the same DP or with different DPs.

Lien on Units:-

On an ongoing basis, when existing and new investors make Subscriptions, pending clearance of the payment instrument, a temporary hold (lien) will be created on the Units allotted and such Units shall not be available for redemption/switch out until the payment proceeds are realised by the Fund. In case a Unit holder redeems Units immediately after making subscription for purchase of units, the redemption request for such investor shall be rejected. In case the cheque/draft is dishonored during clearing process by the bank, the transaction will be reversed and the Units allotted there against shall be cancelled under intimation to the applicant. In respect of NRIs, the AMC/ RTA shall mark a temporary hold (lien) on the Units, in case the requisite documents (such as FIRC/Account debit letter) have not been submitted along with the application form and before the submission of the redemption request. The AMC reserves the right to change the operational guidelines for temporary lien on Units from time to time.

Suspension of sale of units

With the approval of the Boards of Directors of the Trustee and the Asset Management Company, the sale of Units may be suspended temporarily or indefinitely when any of the following conditions exist:

1. The equity / debt market stops functioning or trading is restricted.
2. Periods of extreme volatility in the equity / debt market, which, in the opinion of the Investment Manager, is prejudicial to the interest of the investors.
3. When there is a strike by the banking community or trading is restricted by RBI or other authority.
4. Period of extreme volatility in the equity / debt / money market, which in the opinion of the Board of Directors of AMC and Trustee is prejudicial to the interest of the scheme's investors.
5. As and when directed by the Government of India or RBI or SEBI to do so or conditions relating to natural calamity/external aggression/internal disturbances etc. arises, so as to cause volatile movements in the money or debt market, which in the opinion of the AMC, will be prejudicial to the interest of the unitholders, if further trading in the scheme is continued.
6. Break down in the information processing/communication systems affecting the valuation of investments/processing of sale/repurchase request.
7. Natural calamity.
8. SEBI, by order, so directs.
9. Trustee views that increasing the Scheme's size further may prove detrimental to the existing/prospective Unitholders of the Scheme.
10. Any other circumstances which in the opinion of the Board of Directors of AMC and Trustee is prejudicial to the interest of the existing/prospective investors.

Right to Limit Redemption:-

The AMC may, under the below mentioned circumstances, impose restriction on redemption (including switch-outs) for a period not exceeding 10 working days in any 90 days period. Such restriction may be imposed when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as:

Liquidity issues - When market at large becomes illiquid affecting almost all securities rather than any issuer specific security;

Market failures, exchange closures - When markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such

	<p>unexpected events could also be related to political, economic, military, monetary or other emergencies;</p> <p><u>Operational issues</u> - When exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out).</p> <p>However, such restriction would not be applicable to the redemption (including switch-outs) requests received for up to INR 2 Lakhs. In case of redemption (including switch-outs) requests above INR 2 Lakhs, the AMC shall redeem the first INR 2 Lakhs without such restriction and remaining part over and above INR 2 Lakhs shall be subject to such restriction.</p> <p>Any imposition of restriction on redemption (including switch-outs) of units of the Scheme shall be made applicable only after specific approval of Board of AMC and Trustee and the same shall also be informed to SEBI immediately.</p>

III. Other Details

A. Benchmark:

The Benchmark for the Scheme is MSCI Emerging Markets Index TRI

B. Investment Objective and Strategy:

The scheme will invest in units of PGIM Jennison Emerging Markets Equity Fund (the underlying fund).

About PGIM Jennison Emerging Markets Equity Fund (the Underlying Fund):

Investment objective and policy

The Fund aims to seek long-term growth of capital. The Fund will seek to achieve its investment objective by investing primarily in equity and equity-related securities of companies located in or otherwise economically tied to emerging markets countries. The Fund may invest a large portion of its assets in a single country or region.

The benchmark of the Fund is the MSCI Emerging Markets Index, however, the sub- investment manager has discretion over the investments of the Fund. The Fund will be actively managed and does not intend to track the benchmark. The benchmark is being used by the Fund for performance comparison purposes only.

In determining which securities to buy and sell, the sub-investment manager analyzes individual companies that are located in or otherwise economically tied to emerging markets countries that it believes are in the early stages of acceleration in their growth due to: innovation in a technology, product, or service that disrupts the existing competitive landscape of an industry; a new product cycle or market expansion; acceleration in industry growth; an increase in the market for a company’s product or service; leadership in a market niche; or benefits of a company’s organizational restructuring.

The Fund can invest without limit in non-U.S. equity and equity-related securities, typically invests in a number of different countries, and will invest a significant portion of its assets in companies located in emerging markets. Because the Fund may invest a large portion of its assets in a single country or region of the world, the Fund's investments may be geographically concentrated. This can result in more pronounced risks based upon economic conditions that impact one or more countries or regions more or less than other countries or regions.

The Fund may also hold cash, on an ancillary basis, and invest in money market instruments, which may comprise fixed term deposits, investment grade fixed and floating rate instruments including (but not limited to) certificates of deposit, banker acceptances, freely transferable promissory notes, commercial paper, floating rate notes, debentures, asset backed commercial paper, government bonds, corporate bonds, asset backed securities and money market funds. The Fund may not be leveraged in excess of 100% of its net asset value, through the use of derivatives.
